PSI REPAIR SERVICES, INC.

We're not just a Repair Company – Ask us about our Surplus Services!

It's true that PSI Repair Services, a subsidiary of Phillips Service Industries, is the world's largest independent repair company for electronics, robotics, hydraulics and precision mechanical assemblies. But, did you know that PSI also offers surplus parts? That's right. We're proud to provide additional cost-saving options over the price of buying new parts.

Best of all, buying surplus parts from PSI is quick and easy. We have thousands of surplus parts in stock. All you have to do is tell us the part number, name, manufacturer, or component type. A PSI Customer Service Representative will take care of the rest. If we don't have the particular part you're looking for in stock, we will find it for you. For added convenience, we offer rush and after-hour service. All surplus parts from PSI are tested, and come with a warranty.

 Spindles
 Transmitters
 and more

PSI Sells Surplus Parts

To buy surplus parts from PSI, visit our website at psi-repair.com or give us a call at 800-325-4774. It's very convenient when you need a fast turnaround.

PSI Buys Used/Spare Parts

If you're looking to reduce your own spare parts inventory, call PSI. We may be interested in buying them. Just send us a spreadsheet with the items you are interested in selling – include the part number, the manufacturer, and condition of each item – and we will make you an offer.

PSI Can Sell Your Spare Parts On Consignment

If you would like for PSI to sell your inventory while you keep the items on hand "just in case," we can do that, too. Just send us a spreadsheet with the items you are interested in selling – include the part number, the manufacturer, and condition of each item – and we will make pricing recommendations. If you agree with our recommendations, you sign a PSI consignment contract. From there, PSI lists your spare parts for sale on our online store. When they sell, PSI pays you the agreed price from the consignment contract.
